

The Convergence of Nature and Cellular Science.

Introducing the PEMF Crystal Mat: A unified system for holistic wellness, integrating four synergistic therapies.

Four Pillars of Advanced Therapeutic Technology

Our design philosophy combines four scientifically-supported and natural modalities into one elegant solution. We will explore each pillar to understand its unique contribution to your well-being.

**PEMF (Pulsed
Electromagnetic Field)**

Energizing at the
cellular level.

Far Infrared Therapy

Deep, penetrating heat for
detoxification and relief.

Photon Light Therapy

Targeted light wavelengths
for skin and cellular health.

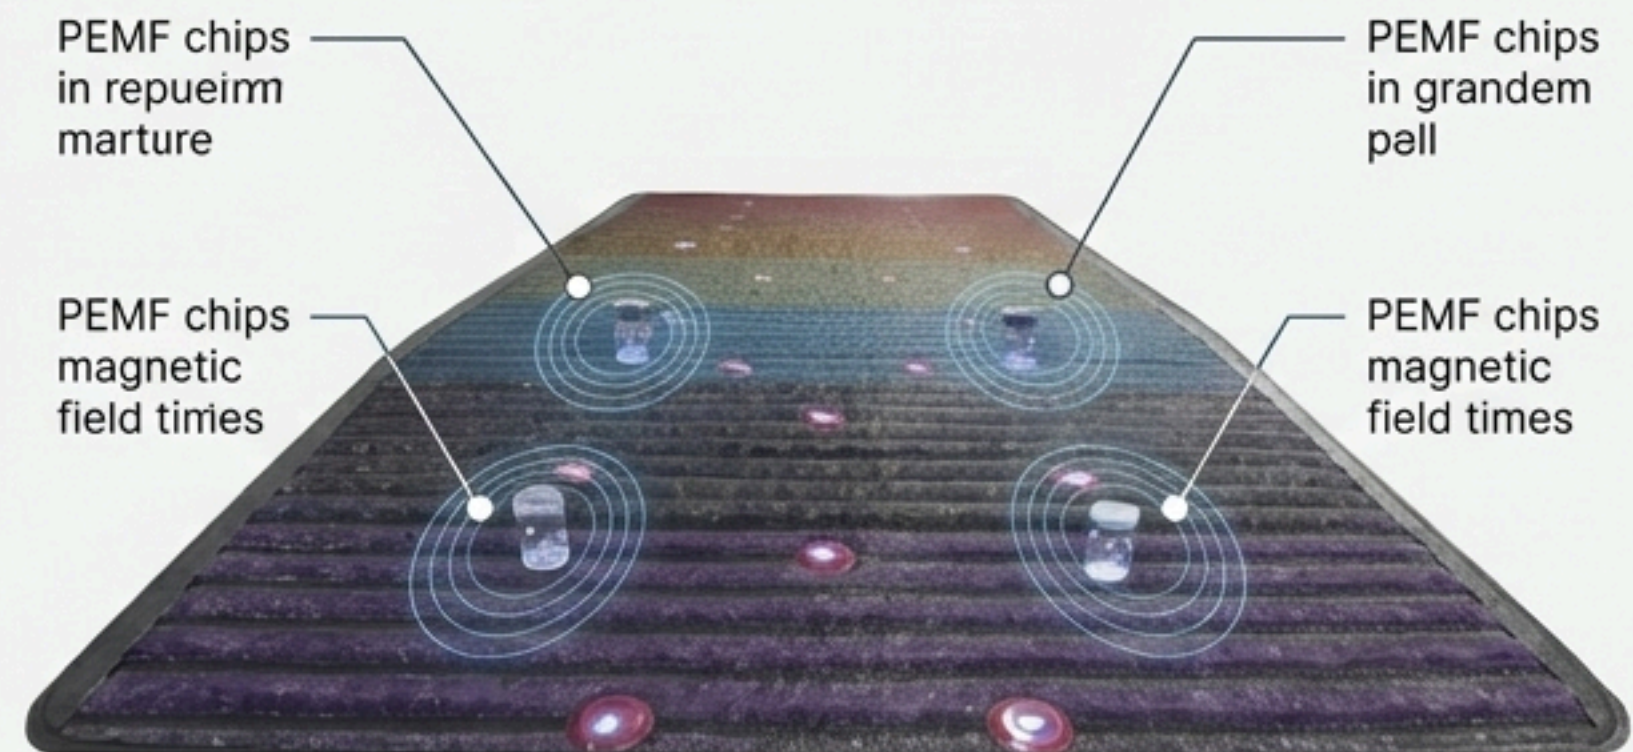

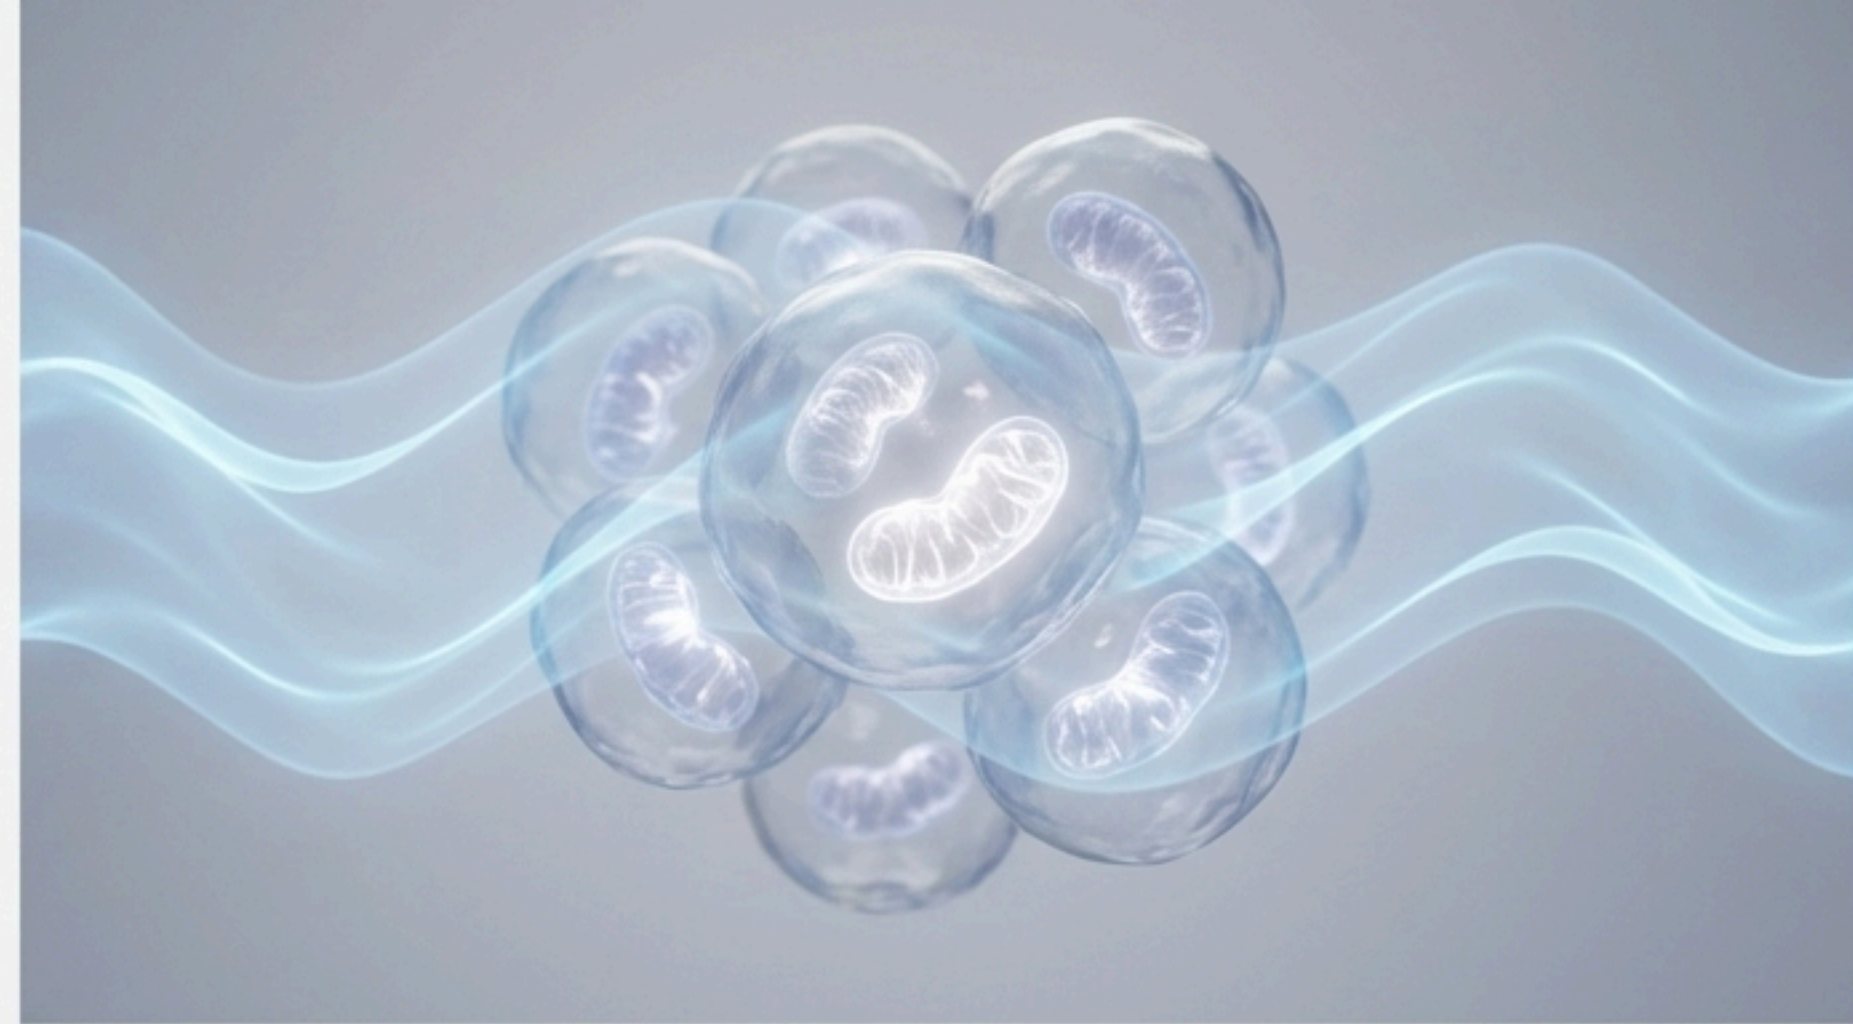

7 Healing Crystals

Natural energy amplification
and emotional balance.

Pillar 1: PEMF – Recharging Your Cells from Within.

Pulsed Electromagnetic Field (PEMF) therapy is a safe, non-invasive modality that energizes the body at a cellular level. By delivering low-frequency electromagnetic pulses, it stimulates natural cellular functions, enhances microcirculation, and helps restore the body's electrical balance. PEMF reactivates the mitochondria—the energy factories within cells—promoting faster healing, reducing inflammation, and alleviating pain.

The mat features 4 PEMF chips with adjustable intensity from 1 to 9 levels, allowing for a fully customized therapeutic experience.

The Broad-Spectrum Benefits of PEMF Therapy.

PEMF can be used on the entire body to address systemic issues or to target specific areas of injury or damage.

General Wellness

Improves blood circulation, sleep, and mood

Relieves pain, tension, and allergies

Sharpens cognitive function and increases body energy

Improves athletic performance and recovery

Assists with Specific Conditions

Musculoskeletal Pain (Fractures, Sprains, Osteoarthritis)

Stress & Headaches

Nerve Pain & Chronic Pain

Circulatory Dysfunction

Wound Healing

Pillar 2: Far Infrared – Deep Penetrating Warmth for Detoxification and Relief.

Far Infrared heat penetrates 4-6 inches into the body's tissues, raising internal temperature safely and naturally. This deep warmth supports detoxification, relieves pain, reduces inflammation and stiffness, and temporarily increases local circulation. The therapy also stimulates the release of endorphins, promoting a feeling of lightness and energy, similar to the effects of a good workout.

Detoxification: Penetrates deep into tissues to support the release of toxins.

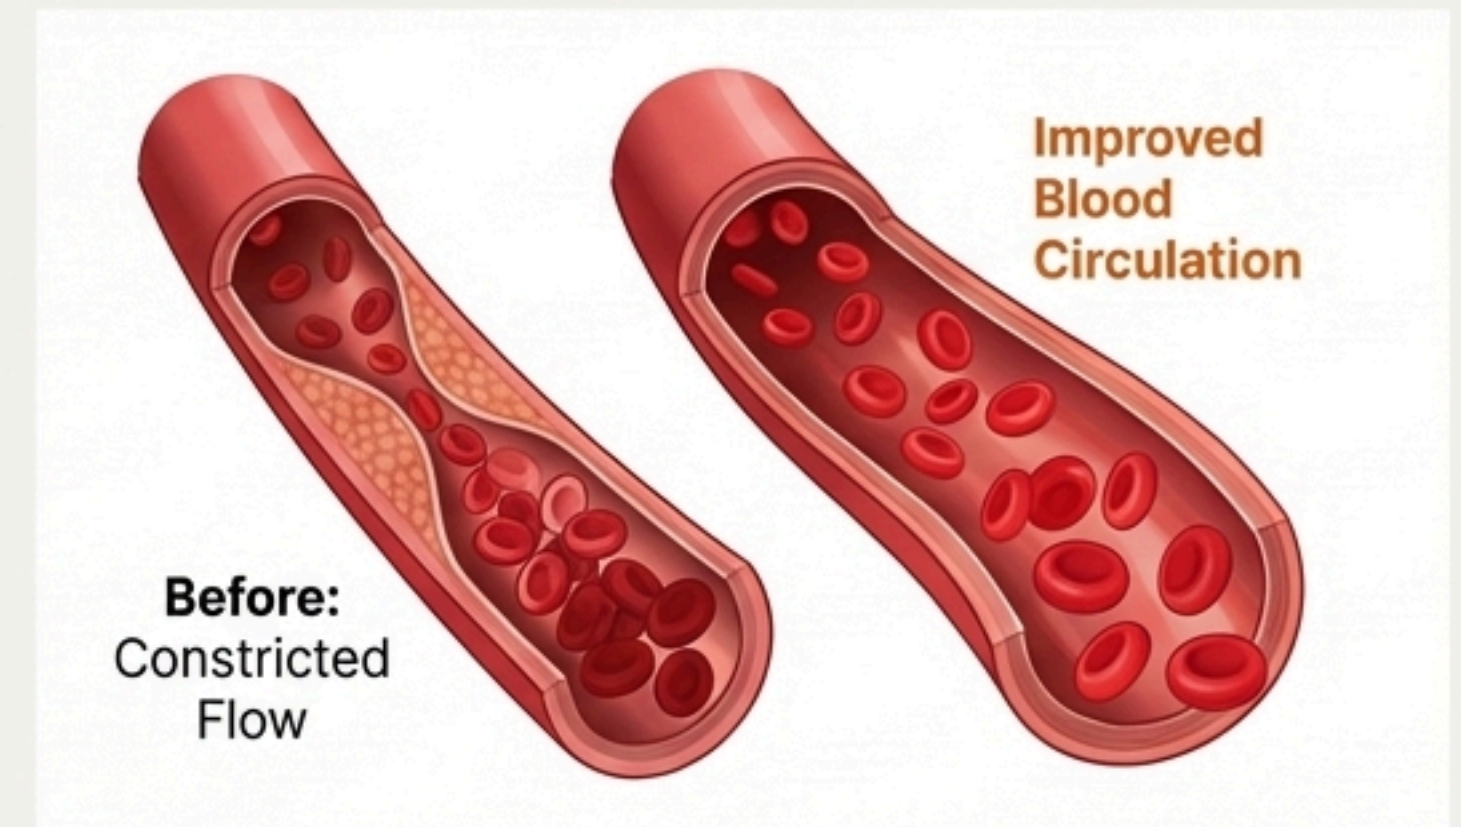

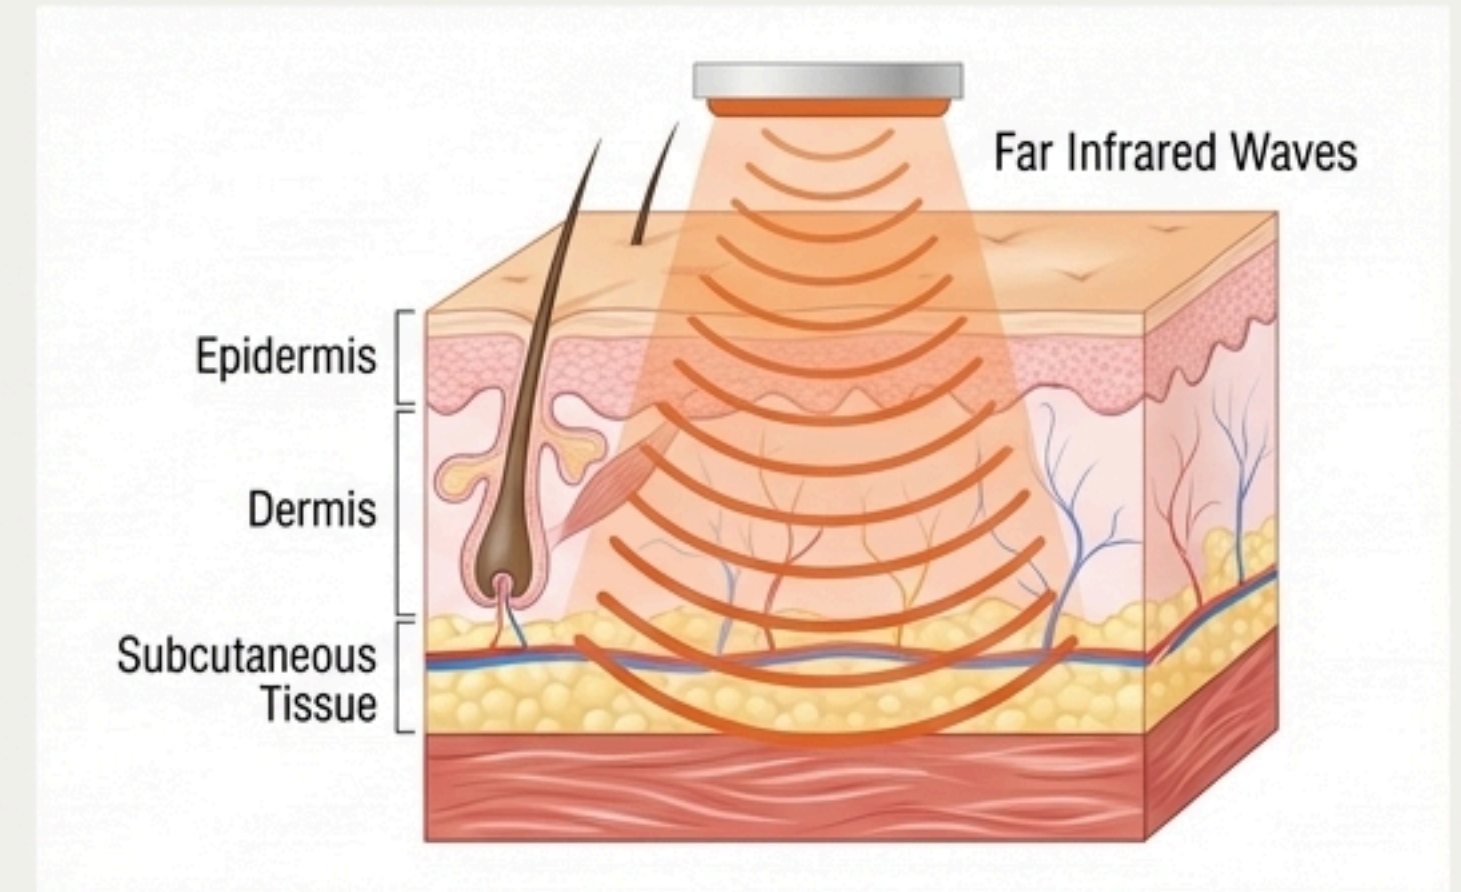

Pain Relief: Soothes muscles and joints, reducing tension and stiffness.

Circulation: Temporarily improves local blood flow.

Relaxation: Relaxes the body and supports the immune system.

Pillar 3: Photon Light – Cellular Rejuvenation Through Targeted Wavelengths.

Photon therapy uses visible light to affect living tissues at a cellular level, promoting tissue healing and regeneration. It is a simple, effective, non-drug alternative for a variety of skin and cellular health benefits.

Red Photon Light

Boosts collagen production, restores cell function, and supplies essential energy for cellular renewal, nutrition, and waste removal.

Green Photon Light

Regulates melanin production, reduces pigmentation, and calms redness.

Blue Photon Light

Destroys *P. acnes* bacteria, minimizing redness and irritation associated with breakouts.

Pillar 4: The Seven Healing Crystals – A Foundation of Natural Energy

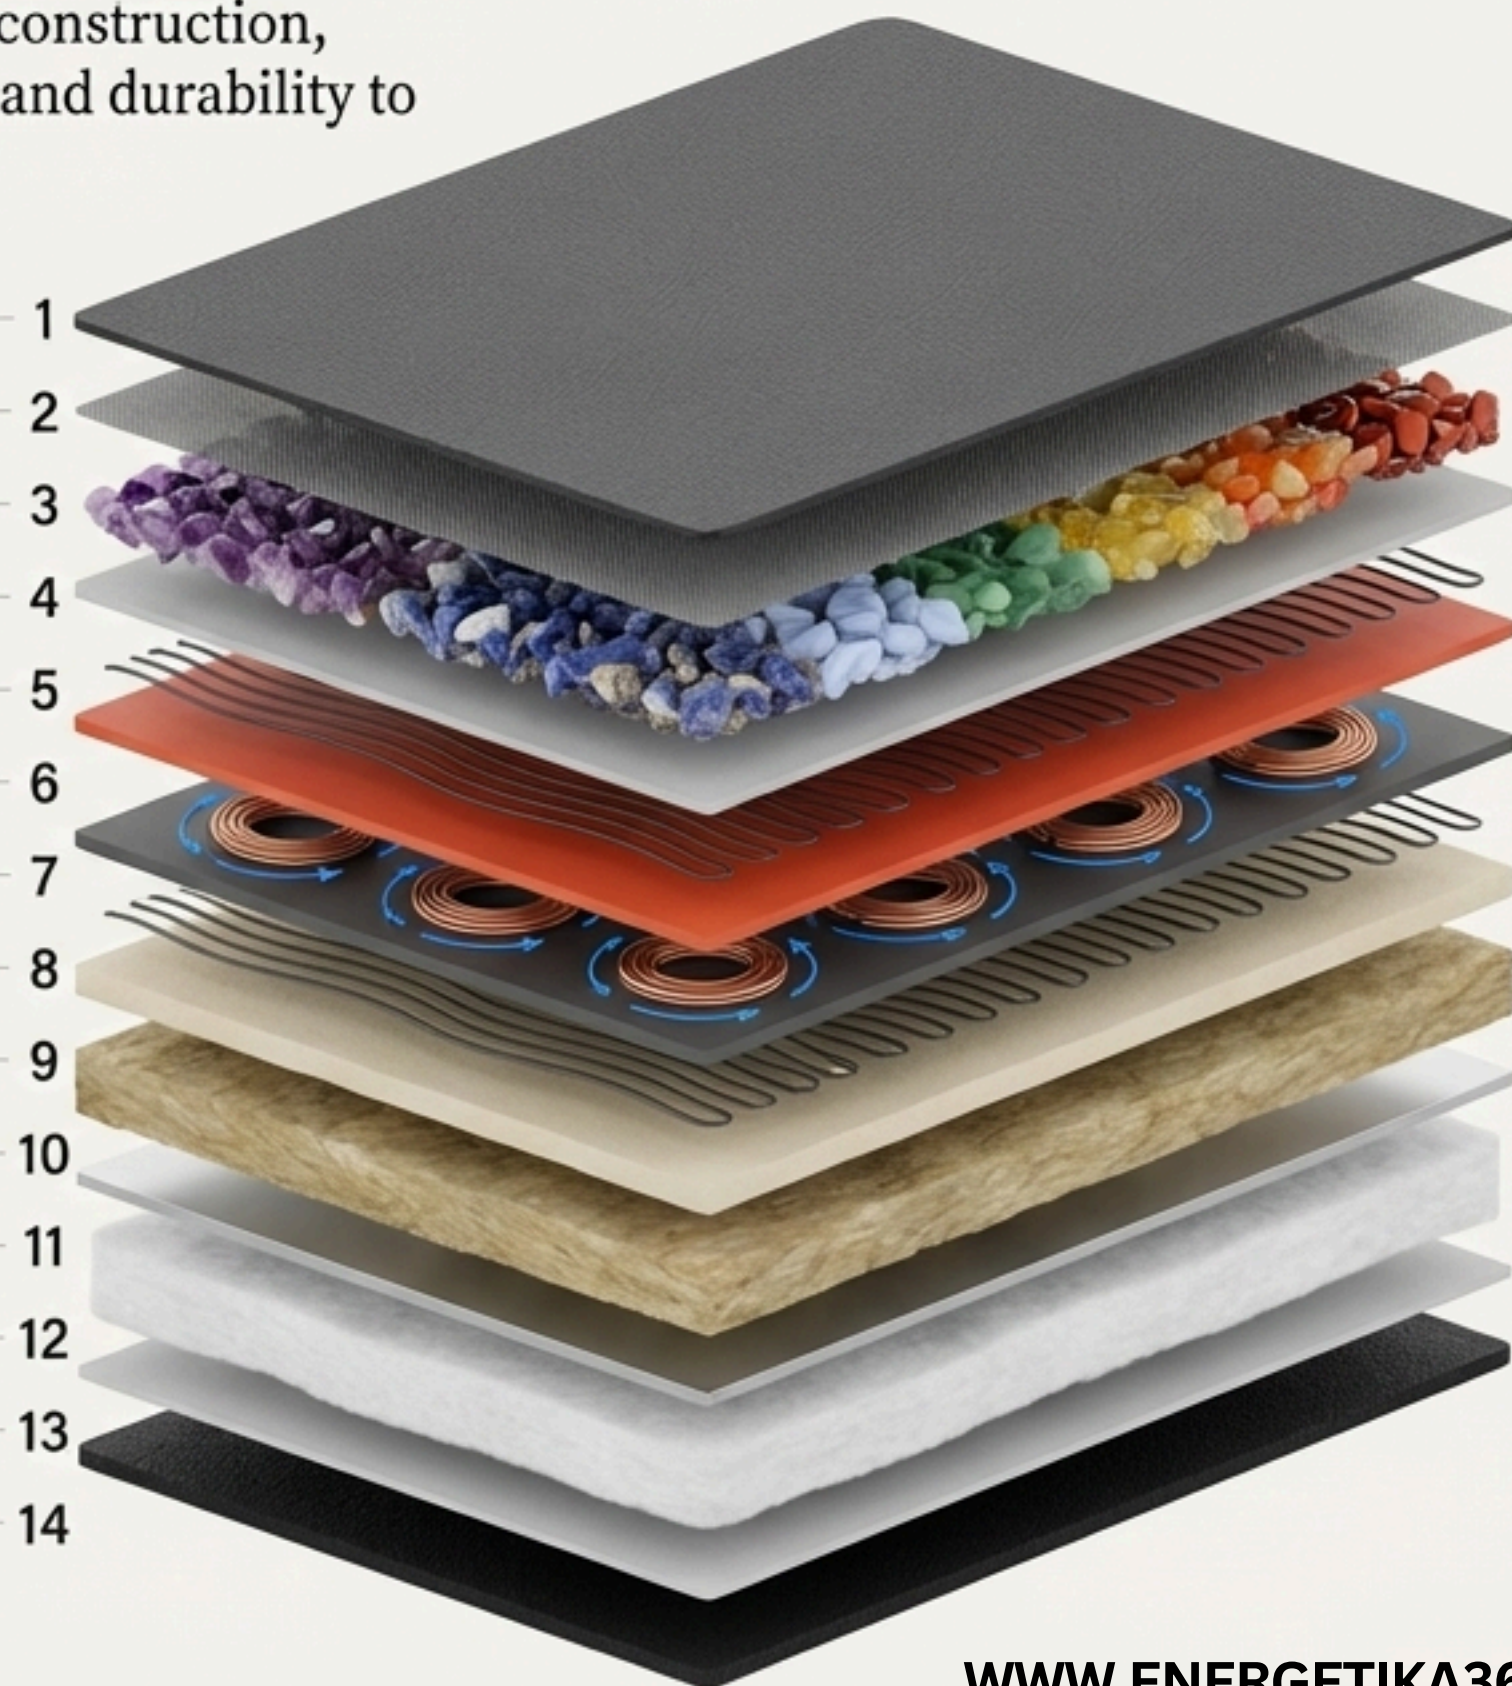

The mat is layered with seven distinct, natural crystals, each selected for its unique energetic properties that work in synergy with the mat's other technologies.

Masterful Engineering: The 14-Layer Construction

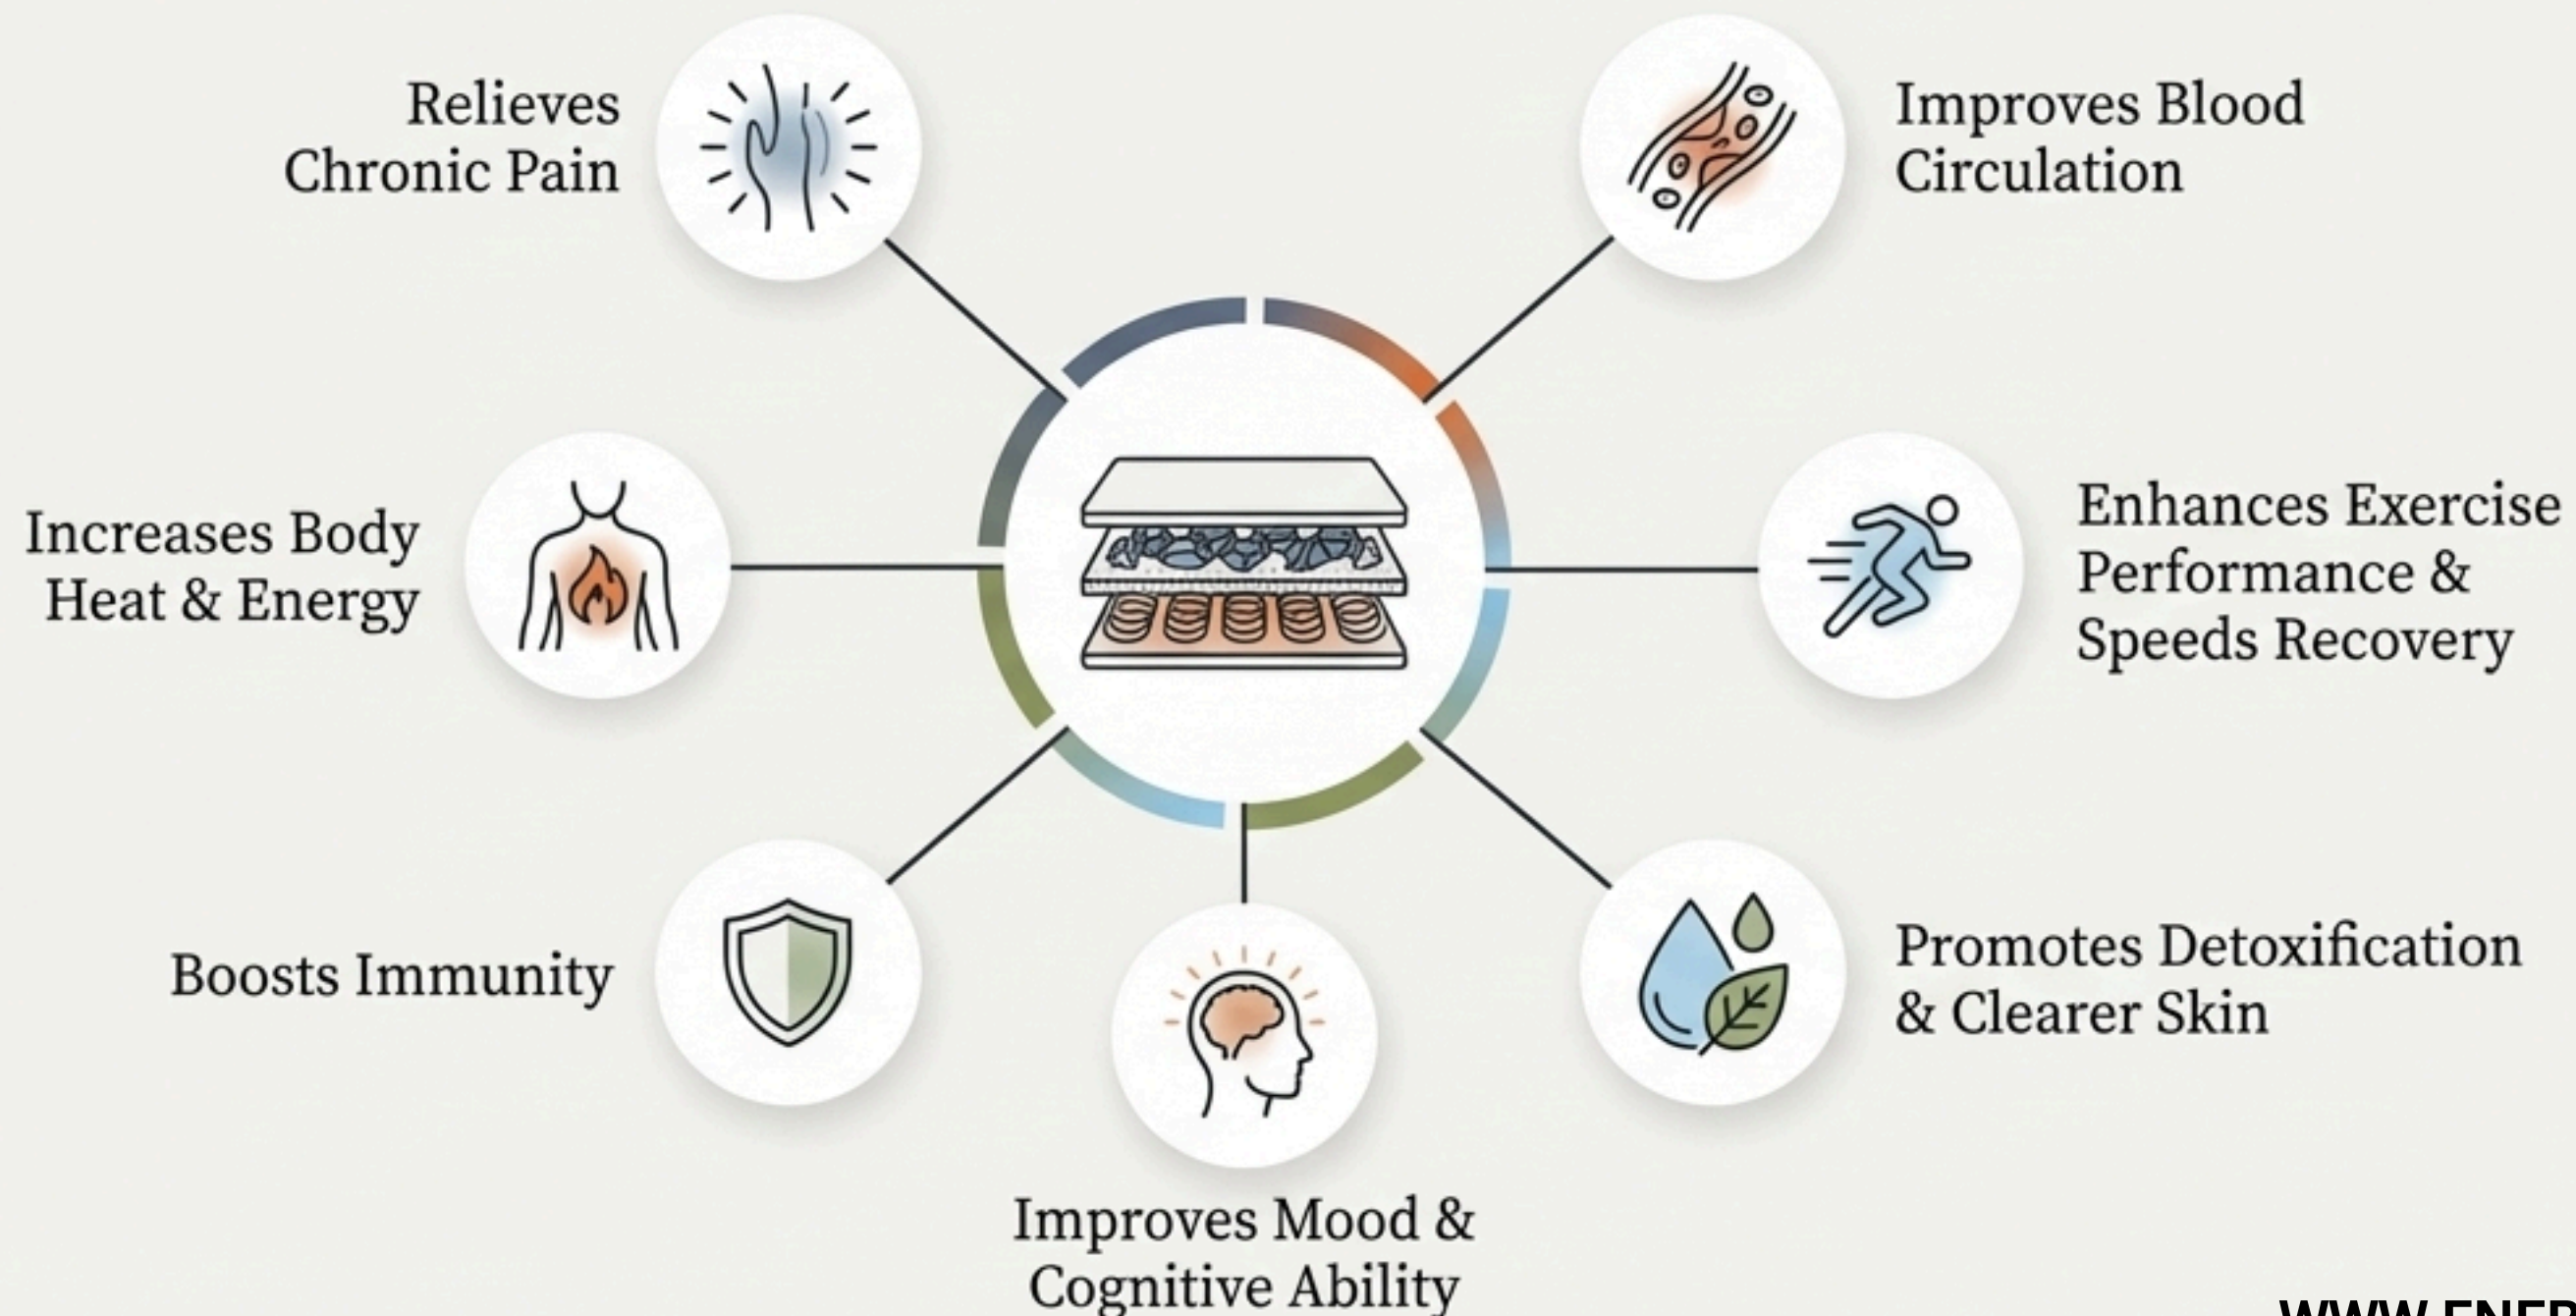

The therapeutic power of the PEMF Crystal Mat lies in its meticulous construction, where each of the 14 layers serves a specific function—from comfort and durability to technological delivery and safety.

1. Durable flame retardant PU leather
2. Solid net fabric
3. Healing Crystals layer
4. Waterproof layer
5. Low EMF carbon fibre Infrared heating wire
6. Over heating protection layer
7. Magnetic-iron PEMF core
8. Low EMF carbon fibre infrared heating wire
9. Hard flame retardant cotton
10. Mineral wool layer
11. Fiber aluminum IR reflecting layer
12. Thick compressed cotton layer
13. Waterproof coating
14. Durable non-slip base layer.

A Synergy of Therapies for Comprehensive Well-Being.

By combining four distinct technologies, the mat delivers a wide range of benefits that support both body and mind.

Precision Control at Your Fingertips.

The handheld controller provides intuitive access to all of the mat's therapeutic functions, allowing you to tailor each session to your exact needs.

- **PEMF Setting:** 1-9 intensity levels.
- **Temperature Setting:** 25-75°C range.
- **Time Setting:** 1-9 hour duration.
- **Photon Light:** Simple On/Off.
- **Power & Adjustments:** Clear buttons for all functions.

Recommended Use: The default time for the PEMF function is 10 minutes, which we recommend for optimal results.

Product Specifications & Package Contents.

Technical Parameters

Model: PEMF CRYSTAL MAT

Size: 190cm x 80cm

Net Weight: 15kg

Heating Element: Carbon fibre heating wire (Low electric radiation)

Power: 200W

Voltage: 100-240V / 50-60Hz

Plugs: Multi-country standards available (CN, JP, US, EU, AU, UK, etc.)

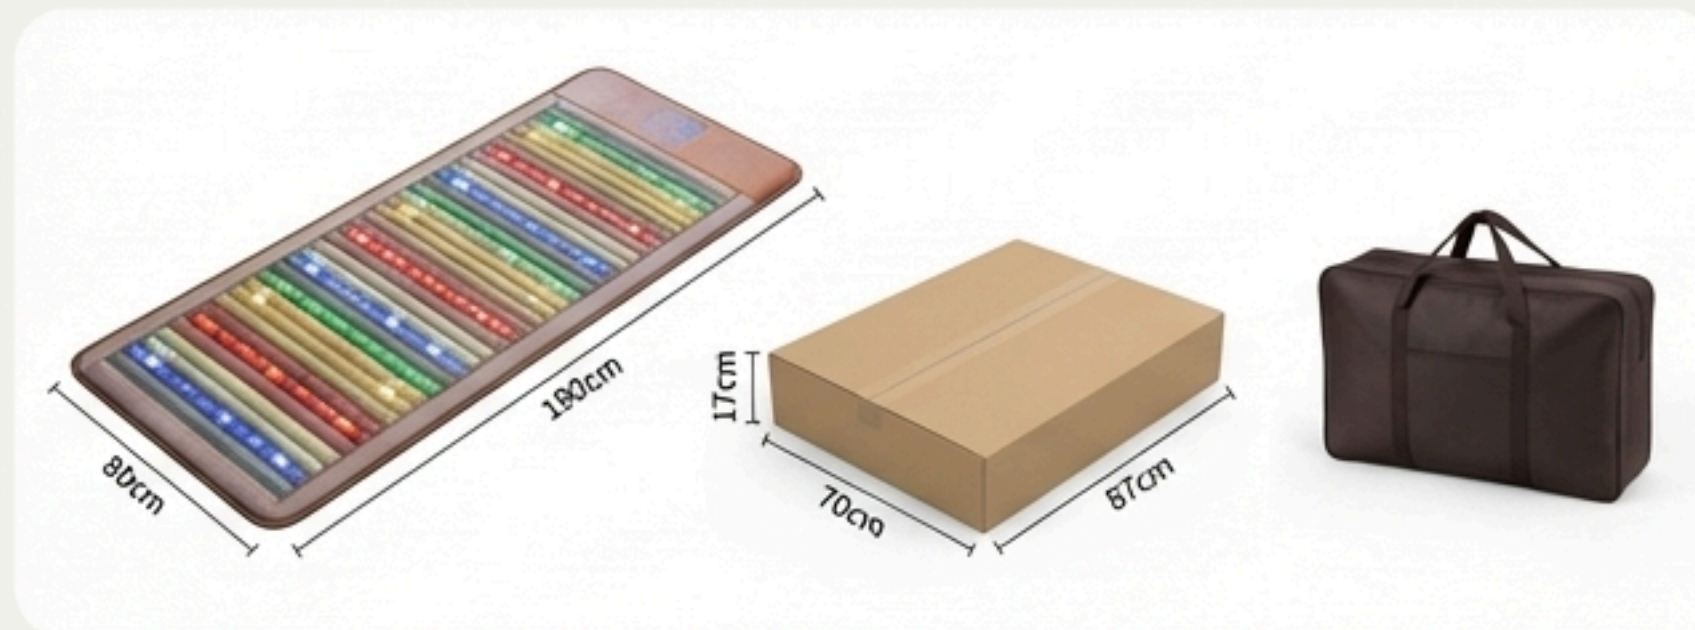

Application Areas: Wellness centres, Healing spaces, Home use, Beauty salons, Health management centres.

Package Details

Product Size: 190cm x 80cm

Packaging Size: 87cm x 70cm x 17cm

Included: PEMF Crystal Mat, Handheld Controller, Carrying/Storage Bag.

Multi Country Plug Standard.

The power plug, Supply All Your Need!

More choices, More security

US
standard plug

AUS
standard plug

UK

JP
standard plug

Recommended Uses and Important Safety Information

Suitable for the Following Conditions and Needs

- Support for improved detoxification
- Relief from muscle or joint pain
- Reduction of inflammation and allergies
- Athletic performance and recovery improvement
- Management of physical or emotional stress
- Assistance with insomnia and sleep disturbances
- Support for diagnosed conditions (e.g., ADHD, anxiety, Lyme disease)
- Improvement for poor circulation

Not Suitable For (Medical Advice Recommended)

- Pregnant women
- Patients recovering from recent surgery
- Those with severe cardiovascular or heart conditions
- Infants and young children

Guidelines for Optimal Use and Care.

Usage Precautions

-  • Always place the mattress on a flat surface.
-  • Do not use while naked or wearing thick clothing.
-  • If temperature exceeds 60°C, limit usage to a maximum of 90 minutes.
-  • Turn off the power after use and allow it to cool before storing.

Storage and Cleaning

-  • To store, gently roll the mattress towards the front (crystal side). Avoid curling the back.
-  • Do not immerse in water. Clean gently with a towel without cleaning agents.

Integrate Advanced Wellness Into Your Life.

Uniting natural therapies with scientific precision to
unlock your body's potential for healing and vitality.
